Hi Kelly,

There has been only one progress report, completed in October, and you contributed to that one - your self-assessment is there, and your comments on your supervisors' comments.

Your next progress report is not showing up as overdue - perhaps the examination period doesn't count as part of the six months.

I get the impression you think there may be further progress reports with comments from your supervisors which you don't have access to, but this is not the case. The progress report format is that the student completes their self-assessment first, and only when you have completed that section does it go to the supervisors so we can add our comments.

Justine.
